Lives Lost

Our Army Sustains Losses.

Engagement with Cowardly Bushwhacking Spaniards.

With the American Army, July day, June 25.—This day's fighting in the advance upon Santiago has cost the American army upward of a dozen men, but it has been a day of magnificent success for the American cause.

For every American who has fallen in battle the enemy has lost two or three men, and for each of our soldiers who has been wounded several Spaniards have been disabled.

This has been a day of action all along the line, although the fiercest fighting was the one that took place early this morning to the southwest of Sevilla, where Spanish Gen. Linares is making his final stand before retreating into Santiago city.

It was in this engagement that the Americans sustained their heavy loss. The fight near Sevilla began at 8 o'clock this morning and lasted four hours. The struggle was most desperate during the first hour. Up to 10 o'clock the Spaniards, who began the attack, tenaciously held their ground. Between 9 and 12 o'clock the battle was a running one, the enemy hastily retreating toward Sevilla and our troops pursuing.

From the time the American forces landed on Wednesday Maj. Gen. Shafter has raised his troops with difficulty. It was his plan to make a quick advance against the enemy, but he has been pinned at the baggage with the Americans have thrown themselves forward.

Their desire to get at the Spaniards the Americans have thrown their lines considerably beyond the points indicated in the instructions, and a feeling of the fighting could not be soon has pervaded our forces.

Despite the impetuosity on the part of the gallant American soldiers, they have swept everything before them. They have attacked the enemy at half a dozen points, taking possession of each in turn. (a) but two days ago: men been on the defensive. That was on Wednesday, while the landing was taking place. It was thought the Spanish might make an attack that night, but nothing of the sort happened.

Instead, Gen. Linares ordered all his troops to fall back and to destroy their block-houses as they went.

Little time was lost in sending a part of the American troops after the fleeing Spaniards. Their retreat was discovered early yesterday morning and the Americans promptly went in pursuit. They advanced mile after mile inland, returning the Spanish fire whenever the enemy appeared to give battle. When night fell yesterday (Thursday) the Spaniards had been driven within two miles of Sevilla, and it was from this position that they were driven in to-day's (Friday) engagement.

Gen. Linares and his men now are at bay, close to the outer defenses to Santiago. They are harassed by Gen. Shafter's men on the east, by Gen. Garza's trained Cubans on the west, and by Admiral Sampson's fleet on the south.

Gen. Shafter's first information from Gen. Wheeler, Gen. Lawton and Col. Wood indicates the regular and the irregular Rough Riders encountered the enemy at about the same hour this morning, although the several detachments of our army were a considerable distance apart at the time. All of our army, including our cavalry, are pressing toward Santiago and no more are being sent in advance of the army, and it was this detached force that the Spanish engaged.

Against our thousands were pitted two thousand. They were strongly entrenched, and the Spaniards had every advantage in position as well as numbers.

Gen. Roosevelt's men, who advanced their way toward Sevilla, encountered the enemy at about the same hour this morning, although the several detachments of our army were a considerable distance apart at the time. All of our army, including our cavalry, are pressing toward Santiago and no more are being sent in advance of the army, and it was this detached force that the Spanish engaged.

along winding paths. Constant watch was kept for the enemy, but none seemed to be lurking in the underbrush that lined the narrow roadway.

It began to seem as if the enemy had retreated into Sevilla, and the men were advancing in quiet order, when the crack of Mauser rifles suddenly was heard. Bullets whizzed over the heads of the rough riders. The fire came from behind a thick underbrush, and the Cubans were ordered to reply. Col. Wood, after ordering his men to lie down, quickly surveyed the situation. The men had been caught in an ambush.

The firing at once became furious. From several sides the enemy's bullets came whistling toward our men, and the engagement had barely begun when several of the rough riders rolled over on the ground dead.

Cuban Gen. Castillo's men began firing more rapidly, and the rough riders made ready to join in the shooting. Provoked by their inability to see the enemy, the men began to curse.

"Don't swear!" Col. Wood shouted, "shoot!" They did, they joined with the Cubans in pouring a terrific fire into the bushes where the Spaniards lay.

It was an open fight for the next fifteen minutes or so. The fire of the Spaniards then drew off a bit, until finally only an occasional shot whizzed toward the Americans' position.

This evidence that the enemy was on the run quickly inspired the American troops. They charged forward, presently gaining a position from which they could see the Spaniards. They renewed their firing with great vigor, driving the enemy foot by foot toward Sevilla. The Spaniards resisted the American advance with great stubbornness. But the tide of battle had turned against them.

During the next two hours they devoted themselves less and less to shooting, and finally fled precipitately toward Sevilla.

DEAFNESS CANNOT BE CURED
There is only one way to cure deafness and that is by constitutional regulation. When disease gets into your ears, you have a rumbling sound or imperfect hearing and when it entirely closes the ear, you are deaf. Unless the inflammation is taken out and the tube restored to its normal condition, hearing will be destroyed for ever. Nine out of ten are caused by earwax which can be removed by an inflamed condition. The mucous membrane is inflamed. **WILLIAMS' PINK PILLS** will give you one hundred dollars' worth of deafness that cannot be cured by any other medicine. Send for circular. **F. J. CROWEY & Co., Toledo, O.** Sold by Druggists. **Halle Family Pills** are the best.

BRUSHY.

Our town is improving nicely under the management of Bascom Sturgill and Tom Steel. Bascom is the merchant and Tom is our preacher.

We are glad John Gussler found his carpenter's outfit.

Garfield Moore went out creek last week with a wagon load of tobacco for his brother Gus. Guess he is out of hay.

Ell Moore has named his boy Gen. Geo. Dewey.

W. R. Baker is improving. Tom Hayes was not on our creek Sunday and the girls seem disappointed.

Lisa Swan has returned from his visit to upper Blaine.

Our friend Weston Vernon, of Salt Lake City is visiting in Lawrence.

Bascom Sturgill and E. L. Moore attended church at Charley Sunday.

Mrs. Marissa Bishop visited at Blaine Sunday.

Our clerk is Jarrod Lester, Harry Steel, E. L. Moore and Fred Steel. All seem to be improving.

General Debility and Loss of Flesh

Scott's Emulsion has been the standard remedy for nearly a quarter of a century. Physicians readily admit that they cannot get from any other fish-forming food.

There are many other preparations on the market that pretend to do what

SCOTT'S EMULSION

does, but they fail to perform it. The pure Norwegian Cod-liver Oil made into a delicious cream, skillfully blended with the Hypophosphites of Lime and Soda, which are such valuable tonics, makes this preparation an ideal one and checks the wasting tendency, and the patient almost immediately commences to put on

fat and gain a strength which sustains them.

BLAINE.

That wagon that they longed for came at last.

Henry Edwards and family have again taken up their residence with us, after a three years absence at Sistersville, W. Va.

Cora is looking well and girls are looking better.

The "Oil" development is being vigorously crowded forward. New rigs are going up, new wells are going down. Machinery is present in abundance, and the workmen are pounding away away with hammer and tongs. (More power to them.)

Some young gentlemen from this district started Sunday to spend court week in W. Va.

There is something at Louisa that seems very satisfactory to one of our Pennsylvania friends.

Charles Berry made his usual weekly visit to the lower end of Hood Sunday.

Socially the past week has been a record breaker. His water mark was reached on Thursday when a lawn party was given at "Rosedale," the spacious country seat of Col. W. S. Edwards, the famous breeder of gaited saddle horses, and as a grand finale to a pleasant afternoon, a group photograph was taken with the mansion for a background. It certainly made a pretty picture, being a large and representative gathering combining wealth, wit, wisdom and beauty. The central figure represents the Colonel and his handsome wife, flanked on the left by the colonel's beautiful and accomplished sister, Mrs. Weizell.

This charming little lady has been making a somewhat protracted visit here and has made scores of friends on these waters, and as the time for her departure approaches, many regrets and at least a few tears will mingle with the good-bys soon to be said.

There are many things that perhaps would be of interest but as the candle is burning low darkness hovers over

The Man About Town.

The Spanish-American War has aroused a profound interest in the study of Spanish, and the News acknowledges the receipt of a number of volumes of Spanish texts from the publishers, the American Book Co.

These books are especially interesting to Americans, as several of them are books on which the Cadets of the Army at West point have been drilled, and may illustrate the proposition: "To master the Spanish, learn their language."

EDMONDS BRANCH.

Ex-Judge Wm. Woods was in town one day last week looking after what cattle he could find.

A. R. Edmonds, formerly of Albright hollow but now of Bear creek, was here a few days ago on business.

Farmers have their wheat in the shock and the crop is said to be excellent, but the oat crop will be very short.

Mat Browning, one of our leading citizens, accompanied by his better half, a most estimable lady, and a leader in fashionable society smiled on the inhabitants of the Dyer Bend of Illinois last week; and we regret that Mrs. Browning fell from the buggy, receiving painful injuries.

Landon Carter and Willis Roberts, our leading stock merchants, went to Cincinnati this week with a fine lot of cattle.

John Salyers is down the river on business.

Postmaster, miller, blacksmith and last but not least, good citizen Jim Compton, went to Buchanan a few days ago after some of his mill apparatus.

Poe Compton, our Sunday School Superintendent, is suffering with a boil on his arm.

The fruit tree and sewing machine agents are abroad in the land and are quite sleek tongued, but I think most of the people have quit biling.

Henry Ceseo, the new comer among us, is one of our most enterprising farmers. He has almost the entire farm he purchased from Lackey and Shannon in corn, as well as a large boundary on Two Mile creek near Louisa.

An upper Morgan creek, and a man at the head of a family too, cradled wheat one week to pay for a plot.

The road machine as well as some of the delinquent tax payers have been here on our section of the graded road and have left their mark behind them, too.

George J. Carter, our good merchant, is wielding the yard stick some, and the meat knife and coffee scales a "heap." He reports trade very fine in the grocery line.

If we get the new ground laid by and the wheat stacked, you will hear from us next week.

WAR ITEMS.

Morro Castle, the most formidable defense about Santiago, was abandoned Friday by the Spaniards. The other batteries at the entrance to the harbor having been badly damaged, a passage may be forced by Admiral Sampson with little trouble, and the enemy thus fought from both sides. Fear of the dynamite cruiser Vesuvius is believed to be the cause of the desertion of El Morro.

Hamilton Fish, Jr., one of the sixteen men killed with the Rough Riders in the battle near Santiago a few days ago, was the son of a wealthy New Yorker and a grandson of President Grant's Secretary of State.

Orders have been sent to Maj. Gen. Shafter to return his transports to Tampa that an additional army of 18,000 men may be sent to him. This will consist of the Fourth army corps, under Maj. Gen. Cope, and will include the One Hundred and Fifty-seventh Indiana, First, Third and Fifth Ohio, and the First Ohio cavalry.

Six hundred Cubans and two troops of the Tenth United States cavalry have gone from Tampa to the north coast of Santiago province. Besides being thoroughly armed, the expedition carried 15,000 rifles and 5,000,000 rounds of ammunition, which will be turned over to the insurgents. About 200 tons of provisions was also part of the expedition. This detachment will march on Santiago from the rear.

Why pay \$3.00 to \$5.00 for a portrait frame from an agent, when I will sell the same quality from \$1.00 to \$2.25, (remember I have no hotel or traveling expenses) and do not give free portraits away, is the reason I sell cheaper at a fair profit.

Severe Suffering

Case of Internal Ulcerated Pile Cured by Hood's Sarsaparilla - Able to Work for the First Time in Four Years.

"My husband was taken with severe internal ulcerated piles. He was once apparently cured but the old trouble came back as bad as ever. He became very weak. After a while he gave up all other medicines and began taking Hood's Sarsaparilla. This medicine did him wonderful good. In about two months he was able to walk out in the yard. When he had taken seven bottles he was able to ride out every day and work a little and he had gained 40 pounds in weight. He is now short as well as he ever was and has been at work on his farm. Last fall he saved his own wheat, this being the first work he had done for four years. I think Hood's Sarsaparilla the most wonderful medicine in the world."

"Cerro Gordo" Williams, of Mt. Sterling is dangerously ill.

An officer in the War Department says the American army in Cuba will celebrate the glorious Fourth in Santiago.

The American troops at Santiago are not finding the climate so hostile as the Spaniards predicted. There are few cases of sickness among the men.

Of the two hundred Lieutenants appointed by the President last week to the regular army, seventeen are supposed to belong to Democratic families.

The Board of Election Commissioners have made a ruling that no Federal, State, municipal, county or district officer can serve as a member of the County Board.

The defenses of Santiago are strong. Trenches surround the town, connecting the forts, and there are seven barbed-wire trenches to be crossed. It is also said the outgoing roads are being undermined.

Secretary Long has promoted the seven men who accompanied Lieut. Hobson, two to be warrant officers, two to be chief machinists and three to be chief boatwains mates. Lieut. Hobson's promotion will not be made until he has been exchanged, as it is desired to give him a choice between two promotions. In addition to their promotion each of the men will receive \$100 in cash and a medal.

Spain has at last awakened to the fact that the political situation there is very grave. Several Cabinet meetings were held Monday and efforts made to avert the Cabinet crisis, which seems imminent. The attendance in the Chamber of Deputies Saturday by Gen. Martinez de Campos, former Captain General of Cuba, are regarded as particularly significant at this time and there is a fear in Madrid that he will use his influence in the attempt to establish a dictatorship. BRECKINRIDGE

Will Surely Be Here
July Fourth.

Report to the Contrary Circulated by Rivals

The silver-tongued orator, Wm. C. P. Breckinridge, has written the Louisville 4th of July Committee that he will certainly be here on next Monday, in response to their invitation, to deliver an appropriate oration. The present war in its close relation to the subject of independence will occupy almost his entire time, so his letter states. What could promise a richer treat than that of Breckinridge in these stirring times on a subject so inspiring? We predict that it will surpass anything ever heard in this section. Everybody should hear it.

A report has been circulated in various directions that Breckinridge will not be here, and that he was being advertised simply to draw a crowd. We are informed that the report was started by some of the force who were advertising the Ashland celebration in order to get as many people down there as possible.

The Louisville people have never deceived the public and will never do so intentionally.

And Mr. Breckinridge will not be the "whole thing" on the Fourth in Louisville. There will be races, music, singing, boxing, drill and a cake walk. Come to Louisville and have the biggest time on record for the least money.

The Latest.

Washington, June 29, 1:20 p. m.—Gen. Shafter has just reported to Gen. Miles that he can take Santiago in forty-eight hours, but indicates that the undertaking might involve considerable loss. He is fully aware of the approach of Spanish reinforcements, and it is believed here that he intends to take the town immediately, and that the news of this battle might be expected at any time.

The preparations for a general advance of the American troops on Santiago da Cuba are being pushed steadily forward, and troops of all branches of the service are being hurried to the front.

The delay in the general forward movement is due to the inability to get subsistence stores to the front rapidly enough.

The pack trains can only convey one day's ration in a day. The men constructing the bridge roads have the work almost completed. In two or three days more every man will have three days' rations in his knapsack, and as soon as that occurs the army will move upon the enemy.

Admiral Camara got as far as the Suez canal with his big Spanish fleet on his way to Manila, but he ran out of coal and could get no more at that point, the neutral powers refusing to supply it. So he is coming back to Spain.

Commodore Watson, a native of Frankfort, Ky., has been ordered to take a strong fleet to Spain and bombard her coast.

Owing to the delay in the arrival of troops at Manila the situation in the Philippines threatens to become complicated. The rebels, influenced by foreign Consuls, now want complete independence. Aguinaldo may invite recognition by the Powers. This may bring about a rupture with the Americans, which Germany desires. Aguinaldo has already had interviews with the German Admiral.

DEEDS OF HEROISM.

In the two hours' fighting near Santiago during which the volunteers battled against their concealed enemy, enough deeds of heroism were done to fill a volume. One of the men of troop E, desperately wounded, was lying squarely between the lines of fire. Surgeon Church hurried to his side with bullets pelting all around him, calmly dressing the man's wound, bandaged it and walked unconcerned back, soon returning with two men and a litter and brought him into our lines. Another soldier of troop L, concealing himself as best he could behind a tree, gave up his place to a wounded companion and a moment or two later was himself wounded.

Sergt. Bell stood by the side of Capt. Capron when the latter was mortally hit. He had seen that he was fighting against terrible odds, but he never flinched. "Give me your gun a minute," he said to the Sergeant, and kneeling down, he deliberately aimed and fired two shots in quick succession. At each a Spaniard was seen to fall. Bell, in the meantime had seized a dead comrade's gun and knelt beside his Captain and fired steadily. When Capt. Capron fell he gave the Sergeant a parting message to his wife and father and bade the Sergeant cheerfully go away.

FOR NEIGHBORS.

News from Pike county states a named Deaton was drowned during a cloud burst recently.

M. C. Kirk left Thursday morning, where she goes for medical treatment. Her many friends to see her return much benefited. —Eden Tomhawk.

Stantonburg, Ky., June 28.—The mill of John Morris, at Stantonburg, this county, exploded, killing Henry Jones and wounding John Crane and Tom Stone. Jones was killed instantly, being badly scalded and burned about the face. —Ky. Democrat.

Some time ago Mr. Lewis Dempsey sold to Mr. McNutt some mineral and gas property near Warfield. McNutt sold the same property to a Philadelphia party, who have been preparing for the erection of a carbon black factory one mile south of Warfield.

The new concern have a lot of machinery and material at Naagawick waiting a sufficient rise in the river to float the same to the place of operation.

The factory is situated on the West Virginia line, and will, no doubt, add considerably to the business of Warfield and vicinity. We learn that they have purchased surface rights of others and will make further purchases. —Eden Tomhawk.

The convention at West Liberty last Saturday renominated the Hon. Thomas Y. Fitzpatrick, of Floyd county, as the Democratic candidate for Congress in this district, and we place his name at the mast-head in this issue. While we of course are disappointed that our own gifted Kinsolving was not successful in his aspirations, yet the National-Democrat can and will support Mr. Fitzpatrick with pleasure. Since entering Congress no man has worked more faithfully and conscientiously in the interest of his country and his constituents than has Tom Fitzpatrick and the experience he has gained during his first term will be of incalculable value to him in the next Congress and qualifies him to more efficiently represent his people and his party. His nomination was won fairly and squarely and he will receive the votes of all true Democrats in the Tenth District and will be elected in November by a safe majority. Hurrah for Fitzpatrick.—Mt. Sterling Democrat.

Delightful Town

Central Methodist: Monday last the editor ran up to Louisa and spent the day, largely in visiting and conversation with old friends. What a delightful town Louisa is: a regular abode, however, beautiful in situation and the home of many refined and cultured people. In the valley between this place and Louisa the wheat harvest was under way, and a splendid yield it is. All the crops seem very fine, except grain, which is short. The farmer is greatly blessed this year and should be devoutly thankful.

After June 30th the signer of every check or draft is required to put the date and his initials on the Reverse Stamp with a pen and ink or a rubber stamp. This amounts to a cancellation and prevents the stamps from being used more than once. Example:

Stantonburg, Ky., June 28.—The mill of John Morris, at Stantonburg, this county, exploded, killing Henry Jones and wounding John Crane and Tom Stone. Jones was killed instantly, being badly scalded and burned about the face. —Ky. Democrat.

Some time ago Mr. Lewis Dempsey sold to Mr. McNutt some mineral and gas property near Warfield. McNutt sold the same property to a Philadelphia party, who have been preparing for the erection of a carbon black factory one mile south of Warfield.

The new concern have a lot of machinery and material at Naagawick waiting a sufficient rise in the river to float the same to the place of operation.

The factory is situated on the West Virginia line, and will, no doubt, add considerably to the business of Warfield and vicinity. We learn that they have purchased surface rights of others and will make further purchases. —Eden Tomhawk.
